Job Summary	

Job Summary

As an Instructional Support Assistant (ISA) for Fall 2026, you'll assist in coordinating MATH 137 and MATH 138. You will have many opportunities to develop your teaching and communication skills by leading review sessions, helping students during office hours, and answering questions on our message board and through email. In addition, you'll assist in administrative duties such as maintaining the course websites and coordinating the teaching assistants. You'll help in developing practice problems and evaluating students' work as well as helping to resolve marking disputes. Finally, you will perform data analysis related to student performance and marking accuracy between TAs.

The experience you build as an ISA is very well-suited for those interested in a career in teaching.

Job Responsibilities

Job Duties

- Assisting students during office hours, through email and on our message board
- Leading review sessions

- Maintaining the course websites
- Marking assessments
