Job Summary

We're building a relationship-oriented bank for the modern world. We need talented, passionate professionals who are dedicated to doing what's right for our clients.

At CIBC, we embrace your strengths and your ambitions, so you are empowered at work. Our team members have what they need to make a meaningful impact and are truly valued for who they are and what they contribute.

To learn more about CIBC, please visit [CIBC.com](https://www.cibc.com)

What you'll be doing

Join our Global Markets team as a Fall Analyst in this 4-month role and become part of a team focused on delivering innovative banking and investment solutions to CIBC's retail, wealth and business clients including corporates, governments and institutional clients around the world. Our goal remains to be the leading Capital Markets franchise in Canada and to work as one team to build our brand across North America and the world - proudly living our values as we work toward our vision to be the leader in client relationships.

Our Global Markets business comprises our sales, trading, structuring and research teams spanning cash and derivative products in foreign exchange, commodities, rates and equities in addition to securitization, prime brokerage, money markets and more. We are widely recognized for our capabilities and leadership in these areas and remain committed to investing in technology and talent to drive innovation and scalable growth.

You will be provided the opportunity to gain experience in one or more of the following areas:

- Wealth Solutions
- Prime Services
- Government Solutions
- Fixed Income/Money Markets
- Commodities
- Derivatives
- Electronic Trading
- Equities
- Digital Payments and Remittances
- Foreign Exchange
- Securitization
- Structuring

At CIBC we enable the work environment most optimal for you to thrive in your role. To successfully perform the work, you'll be on-site full-time.

Job Responsibilities

How you'll succeed

- Passion for financial markets - Demonstrate strong technical, quantitative, and analytical skills, with keen interest in the financial markets and proven record of academic success, teamwork and extracurricular involvement.
- Process oriented - Present detailed analysis, financial modeling, structuring, and research to support senior professionals and help to identify opportunities to win business, execute transactions, automate existing processes and develop new businesses.
- Communication - Partner with your team to make an impact by applying a technical skillset to help generate insights and/or optimize processes. Showcase highly effective written, oral and presentation skills with an ability to explain complex concepts.
- Relationship management - Provide excellent interpersonal skills with a proven ability to contribute to high-performance teams and demonstrate a commitment to acting with integrity.

Required Skills

Who you are

- You have demonstrated interest in Capital Markets. You are highly motivated, accomplished and a success-oriented individual who has a keen interest in pursuing a career in the financial services industry demonstrated through school courses, clubs and/or related work experience.
- You're digitally savvy. You have proficient technical skills and can demonstrate experience using Excel and general coding practices.
- It's an asset if you have experience using Python, VBA or SQL.
- You give meaning to data. You enjoy investigating complex problems and making sense of information. You communicate detailed information in a meaningful way.
- You're driven to succeed. You can multi-task with the best of them, constructively push the status quo, and deliver competing project-based and operational demands in a dynamic environment.
- You understand success is in the details. You enjoy collaborating with a high performing team to come up with innovative solutions while being committed to acting with integrity.

- You put our clients first. You engage with purpose, to find the right solutions. You go the extra mile, because it's the right thing to do. to find the right solutions. You go the extra mile, because it's the right thing to do.
- Values matter to you. You bring your real self to work, and you live our values - trust, teamwork and accountability.

Skills

Capital Markets, Financial Markets, Global Market, Teamwork

Compensation and Benefits

The expected annualized base salary for this role is \$95,000.

The base salary is determined by a variety of factors, including the candidate's skills, experience, and job-related knowledge, as well as geographic location and specific business needs. Our compensation philosophy supports ongoing growth and development, enabling progression within the salary range as team members advance in their roles.

We are committed to providing fair, equitable, and competitive compensation opportunities for all employees, and we encourage open conversations about compensation throughout the recruitment process.

WaterlooWorks

Additional Application Information

Interested applicants must apply through WaterlooWorks and directly to the employer to be considered for this position:
https://cibc.wd3.myworkdayjobs.com/campus/job/Toronto-ON/Global-Markets--Fall-2026-Analyst_2609913

Important information

- You are enrolled in an undergraduate degree in Commerce, Economics, STEM (Science, Technology, Engineering or Mathematics) or related program at the time of the internship, with a graduation date no sooner than April 2027.
- Include your resume, cover letter, and your most recent unofficial transcript with your application. These should all be uploaded into the resume section of your application as one document in a PDF format. Please indicate your expected graduation date on your resume.
- Location: Toronto. Please note all employees must work within their current jurisdiction and must reside within Canada. All CIBC Co-op positions require you to be based in Canada for the duration of the term.
- Duration of Work Term: 4 months (September 2026 - December 2026).
- This posting will close on Monday, May 18th, 2026, at 11:59PM EST. Applications will be reviewed on a rolling basis; we encourage you to apply as soon as possible.

What you need to know

- CIBC is committed to creating an inclusive environment where all team members and clients feel like they belong. We seek applicants with a wide range of abilities and we provide an accessible candidate experience. If you need accommodation, please contact Mailbox.careers-carrieres@cibc.com
- CIBC is committed to clarity in our hiring process. All roles posted are opportunities we're actively recruiting for, unless stated otherwise.
- You need to be legally eligible to work at the location(s) specified above and, where applicable, must have a valid work or study permit
- We may ask you to complete an attribute-based assessment and other skills test (such as simulation, coding, French proficiency).
- We use artificial intelligence tools during the recruitment process. Our goal for the application process is to get to know more about you, all that you have to offer, and give you the opportunity to learn more about us.
